

AUXILOCK® PEEK OPTIMA PUSH-IN SUTURE ANCHOR

Shoulder Instability Repair

AUXILOCK® PEEK OPTIMA Push-In Suture Anchor is a Push-in/ Bang-on anchor available in diameter of 2.8 and 3.5mm. It is available in double loaded sutures with and without needle options. The PEEK OPTIMA Push-In Suture Anchors are made of PEEK-OPTIMA (Poly-ether-ether-ketone). The PEEK OPTIMA Push-In Suture Anchors are non-absorbable PEEK suture anchors with a material eyelet. It provides superior abrasion resistance due to PEEK's low coefficient friction. It is considered to be Biocompatible, radiolucent, and MRI safe. The drill guide and the drill bit are provided in the instrument set for an accurate placement of the anchor which minimizes the anchor slippage or breakage during the surgery. Anchor insertion and delivery are made simple by drilling a hole through a drill guide and inserting the anchor through the same drill guide into the drilled hole.
