2.0MM WISELOCK HAND SYSTEM

NEXT-LEVEL CARE

An abstract graphic composed of numerous thin, light blue lines that flow and curve across the page, creating a sense of motion and depth. The lines are most concentrated in the center, where they form a dense, grid-like pattern, and then spread out towards the top and bottom edges.

Note: Use corresponding screws as per the specific plate profile and system compatibility.

The background features a complex, abstract graphic composed of numerous thin, light blue lines. These lines are arranged in a way that they curve and intersect to form a central, somewhat diamond-shaped or hourglass-like structure. The lines are more densely packed in the center and become more sparse towards the edges, creating a sense of depth and movement. The overall effect is reminiscent of a stylized flame, a wave, or a modern architectural element. The lines are set against a dark blue, almost black, background.
