CRANIO MAXILLOFACIAL SYSTEM

NEXT-LEVEL CARE

ABOUT US

Auxein Medical is an integrated, research based, orthopaedic implants & instruments manufacturing company, producing a wide range of quality, affordable generic implants, trusted by healthcare professionals and patients across geographies. It is the Company's constant endeavour to provide a wide basket of generic and our innovator products that exceed the highest expectations of customers in term of quality and safety. The company has world-class manufacturing Unit established in India and serves customers in over 75 countries worldwide.

Products & Solutions

Auxein is dedicated to advancing medical technology through innovative orthopedic solutions, including **Trauma, Arthroscopy, and Reconstructive Procedures**, with a commitment to improving patient outcomes worldwide. Our approach integrates advanced research, precision engineering, and high-quality manufacturing to develop reliable implants and surgical instruments that address the evolving needs of modern orthopedic practice.

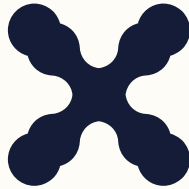

OUR ACHIEVEMENTS

OVER THE YEARS

Disclaimer: Not all products in this catalogue are covered by European CE, US FDA, or other certifications. Please contact our Sales Team for product-specific certification details.

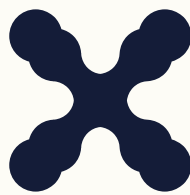

At Auxein, it is our goal to provide the best in class quality and value to every individual. Consistency is a virtue we pursue with a passion. From the procurement of raw materials to the manufacturing of our range of 1200+ orthopaedic implant products, we employ world-class systems and technology at par with the highest standards of globally recognized evaluation systems. The Cranio Maxillofacial System is part of the advanced orthopedic portfolio, designed for fixation and reconstruction of cranial and maxillofacial bones. Developed with clinical input, the system provides stable fixation, precise anatomical contouring, and reliable support for fracture management and reconstructive procedures of the skull and facial skeleton.

The background of the page features a series of thin, light gray wavy lines that flow across the top and bottom edges, creating a sense of movement and depth. The central area is a solid, light gray color.

CRANIO MAXILLOFACIAL SYSTEM

CRANIO MAXILLOFACIAL SYSTEM

Cranial | Facial | Mandible | Orthognathic

Introduction

The CMF System is a comprehensive plating platform for internal fixation of the cranio-maxillofacial skeleton, addressing neurosurgical, craniofacial, mandibular, and orthognathic procedures. The system is designed to provide reliable fixation, anatomical adaptability, and surgical efficiency through a streamlined and standardized instrumentation platform.

Key Features

- Cross-compatibility of screws and plates within each system size
- Low-profile plates and screws to minimize soft tissue irritation
- Standardized instrumentation for simplified surgical workflow
- Versatile plate configurations to accommodate varied anatomical regions

Indications

The CMF System is intended for use in oral and maxillofacial surgery, including:

- Craniofacial trauma fixation
- Reconstructive procedures of the cranio-maxillofacial skeleton
- Orthognathic surgery (correction of dentofacial deformities)
